LURALINE

LIGHTING

LED MiniPack

The LED MiniPack from Luraline Lighting provides mid-range directional lighting in a long lasting architecturally-styled LED fixture. Made with durable heavy-duty cast aluminum, these flushmount wallpacks are available in a wedge or round shape. The LED array enables the fixture to deliver as much as 874 lumens while consuming only 12 watts. These unique fixtures can be purchased with optional photocell and/or surge protection. Use them in almost any indoor or outdoor application. Perfect for doorways, walkways, breezeways, corridors, wall or column mount applications.

Features

- Universal voltage constant current driver
- Flush surface mount
- Cool-running multi-chip LED array
- Up to 874 lumens
- 50,000 hours rated life expectancy
- Optional photocell
- Optional 10K surge protection
- Durable powder coated textured bronze finish
- ADA compliant
- CSA listed - suitable for wet locations
- DLC pending
